

Fabrics - Shopping List

If/when you want to place an order, here's how we do it: Instead of a **Shopping Cart**, I'm giving you a **Shopping List**. One Shopping List for each page. Each Shopping List is easily printable.

Click over to the *Ordering + Payment* page. You'll see a **Message Box**.

Use your printed Shopping Lists when you're ready to order. Just copy the items off your Shopping Lists into the **Message Box**. Note any special request right along with the item. Questions too! All your information will be together in one place (what a concept!).

People often say to me, "You give us so much information!" Well, of course! I'm not just selling stuff here! I'm a teacher! Our ministry is to reclaim the vestment and linen crafts – we gotta work together on this. I give you a lot of information on this website - that's the good news. The bad news is that my website gives you so much information that it makes the website confusing. Your **printable** Shopping Lists reduce the confusion by giving you a 'preview'; telling you what's available on that page, its location and cost. Use your printed Shopping List to tick off items that are of interest to you. If there's something of interest that you don't want to purchase right now, make a note (I've left lots of room for notes!). When you finish looking at the page, use your Shopping List to go back and review. After ordering, your Shopping Lists will be your record of what you've ordered. You can keep your Shopping Lists for future reference.

Any time you have a question, click over to the Message Box on the *Ordering + Payment* page. Feel free to click back and forth between a page and the Message Box frequently! Put your questions in there and I'll get back to you.

When your 'Print' screen comes up, **print Page 2**. (You don't need copies of this page.)
